Antibacteric / Flame retardant of Samarit Rollbord covers

Dear Sirs,

Hereafter we confirm that our production partner in Europe supply technical fabrics for our company Samarit Medical AG, Switzerland.

These products are and will be produced with an antibacterial and flame retardant treatment:

- Quality: M-P-M OP AU antibacterial (royal blue and grey)
- Quality: M-2-M OP AU antibacterial (silver)

To ensure the permanence of the used antibacterial and fire retardant agents the products are brought into the coating paste during the production process.

Herewith it is ensured that the antibacterial and flame retardant effect is permanent.

We confirm that we have the same confirmation with the same wording as document to support above from our supplier.

SAMARIT MEDICAL AG

Jürg O. Schuster, CEO
